Objective

Software Engineer with experience in full-stack development, automation, AI Agents, and Agentic AI. Skilled in MERN Stack, Next.js, Claude AI, and Cursor AI. Passionate about building scalable web applications, intelligent automation systems, and data-driven solutions.

Experience

Belsterns Technologies — Junior *Software Engineer*

📍 Chennai | **Jan 2025 – Present**

- Building full-stack web applications using **Next.js, MERN Stack, and Dockerized environments**.
- Leading and contributing to client projects requiring **AI Agents and Agentic Workflow**.
- Collaborating with cross-functional teams to deliver scalable web and analytics solutions.

Belsterns Technologies — *Software Development Engineer Intern*

📍 Chennai | **Sep 2024 – Jan 2025**

- Designed and optimized web applications in **MERN Stack and Next.js**.
- Worked on **client-facing projects** involving **AI Agents, Agentic AI and Agentic Workflow** for reporting and automation.
- Assisted senior developers in delivering scalable software aligned with client requirements.

Eztest & Client Projects — Contributor

📍 Remote | 2024 – Present

- Contributed to **open-source** and **client-specific solutions** [Next.js](#) And Postgres.
 - Working on AI workflow automation, Agentic AI and AI Agents based solutions for business processes.
 - Contributing to AI agent workflows involving automation, task orchestration, and intelligent process handling.
-

Personal Projects

Home Rental Platform — MERN Stack | Jul 2024

- Built a rental booking system with CRUD operations, booking calendar, and automated email notifications.
- **Tech:** React Router, Axios, Date Picker, Express, Mongoose, JWT, Nodemailer, Multer.

Real Estate Platform — MERN Stack | Mar 2024

- Created a property listing platform with filters for continent, price, and property type.
 - **Tech:** React Router, Fetch API, Express, MongoDB, JWT, Nodemailer, Multer.
-

Education

Master of Computer Applications (MCA)

Kongu Engineering College, Perundurai | Aug 2023 – Apr 2025 | CGPA: **8.4**

Bachelor of Computer Science

Government Arts & Science College, Thittamalai | Aug 2020 – Apr 2023 | CGPA: **7.57**

SSLC & HSC

Shree Gurukulam Higher Secondary School, Gobichettipalayam | 2018

SSLC: **86%** | HSC: **78.5%**

Skills

Web Development: MERN Stack, Next.js

Programming: JavaScript (Intermediate), Python (Intermediate), SQL, MongoDB

Tools & Platforms: Git, GitHub, Docker (Basics), VS Code, Claude, Cursor, Langfuse

Artificial Intelligence: Agentic Workflow, AI Agents, Agentic AI

Languages: English, Tamil

Achievements

1st Rank in the Undergraduate Computer Science Department.

Areas of Interest

- Full-Stack Web Development
 - Software Engineer
 - AI Agents
 - Agentic AI
-

Additional Information

- Strong ability to **adapt to new technologies quickly** and apply them in client projects.
- Contributor to **HouseOfFOSS** and other community-driven projects.
- Web Developer passionate about leveraging Agentic Workflows, AI Agents, and Agentic AI to build scalable and intelligent applications.
